TRANSMITTAL OF THE SAMPLING AND ANALYSIS PLAN TO SUPPORT THE
GEOTECHNICAL EVALUATION OF THE TRENCH 1 TENT INSTALLATION,
DOCUMENT NO. RF/RMRS-97-113, NOVEMBER 1997, REVISION 0 - ALP-014-97

This letter will confirm that the Sampling and Analysis Plan to Support the Geotechnical Evaluation of the Trench 1 Tent Installation has been informally transmitted to Kaiser-Hill and the EPA. As this SAP was implemented to provide design information for the shelter, it was not intended to be distributed outside of RMRS. However, recent decisions concerning the need for the agencies to review and/or approve all SAPs resulted in this informal transmission.

Will the SAP for the off-site treatment and waste disposition at Starmet also need review and approval from Kaiser-Hill, DOE and the agencies? If so, please let me know as soon as possible.
